Mrs K.Lilico, Acting Executive Headteacher

Dear Parents/Carers,

Nexus-work on the Metro lines

We have been informed by Nexus, which owns and operates Metro, that they are embarking on a key phase in the £20million project to design and build a satellite depot in Howdon.

There will be an installation of 1500 volt DC cables, and subsequent energisation due to take place from 17 July 2020.

Live overhead lines/cables on railways are highly dangerous, and have the potential to kill or cause serious injuries. Anyone entering on to the Depot site, without prior consent, are liable to these dangers and to prosecution.

If you require further information about the Depot then please do not hesitate to contact Nexus further.

If you have any questions or concerns then please contact Rebecca Ditchburn, Nexus Community Relations Officer on 0191 20 20 747 or via email community.relations@nexus.org.uk

Thank you.

Yours sincerely,

Mrs C Garrett
Deputy Headteacher
